

ANTHONY DELEON

Software Student

PROFILE

I have always had a passion for serving, helping, and inspiring others, and it is a value that I have integrated and expanded upon in all my professional ventures. From working in a gym and grocery store to climbing 400ft telecom towers on top of mountain peaks to maintain the cell network, I certainly have a colorful and unique background! Currently, I am studying to develop software programs to positively impact users of various integrated technologies.

Evidenced by my work experience, I have a proven track record of excelling at my job, fast-tracking myself to promotions, and opening the doors to new opportunities for growth within a company.
